

Charity Auction

It is the time of the year again when the Insurance Industry dig deep into their pockets and look deep into the bottle for the benefit of those less privileged. Following the resounding success of last year's wine auction, it was decided to support the MAD Organisation established by Francois Pienaar and other World cup-winning captains. MAD assists talented young people from less fortunate homes to access quality education in order to offer them a better opportunity in life. The renowned Hempies Du Toit will act as auctioneer this year to entice you into tantalising your inquisitive palates.
